

## Senior Project Manager **Uwe Brauckmann**

Uwe is a Process Engineer who has his technical roots in chemical and mechanical processes of the West-German hard coal industry. During his 30 years of project management background, he was part of dozens of large-scale investment projects worldwide.

In his carrier he gained experience in all fields of the project lifecycle from first ideas via development, execution, construction, operation up to after sales services from production and from plant supplier side. Covering thereby engineering skills as well as commercial and contractual project aspects. With his profound expertise in energy projects,

he supports several RWE project developments.

Uwe earned his Engineer Diploma degree in 1985 from Fachhochschule Bergbau, Bochum.

### **1 What gives you most satisfaction in your work?**

To be an active part in the whole project evolution of power plant projects and get the backing of more than a century engineering expertise from RWE.

### **2 Why did you choose RWE TI?**

RWE TI has the full capability and experience to lead high complex and capital intensive power plant projects of all kinds. It is a very unique organization which gives my own concept inspirations space for growing.

### **3 “Your challenge is our passion!” – What it means to me:**

I always want to discover the full potential of RWE TI’s techno-economical capabilities to gather a holistic solution for the client’s demands and requirements.
