

Project Manager **Robert Dunk**

Robert is a highly experienced and long-standing employee of RWE Technology International UK in the field of project management. His experience of more than 30 years includes technical and contractual management during project development and execution, as well as maintenance and operation of facilities.

In addition, as head of the UK project management team, Robert's responsibilities include the day-to-day management of a multi-disciplinary team of 15 project managers developing and delivering various capital projects.

As a native speaker, he has excellent language skills in English and is learning German.

Robert is qualified in mechanical engineering, engineering management, and project management.

1 What gives you most satisfaction in your work?

Being part of the energy transition and RWE's "Growing Green" strategy. It's great to be part of a team focussed on decarbonising electricity.

2 Why did you choose RWE TI?

RWE Technology International has industry leading owner's engineering and project management expertise. The opportunity to be part of the RWE Technology International community, with exposure to the variety of technologies, and challenge of full lifecycle project management, makes it a really interesting and enjoyable place to work.

3 What three words best describes you?

Dedicated. Thorough. Empathetic.

4 „Your challenge is our passion!“ – What it means to me:

RWE Technology International has a range of internal and external clients seeking solutions to often complex technical challenges. These challenges can sometimes be enormous, or seem impossible to resolve. With the support of a wide range of experienced experts, RWE Technology International can find solutions and implement them. We relish the opportunity to show what we can deliver – that's our passion!
