

Head of Development and Execution Support CCS  
& Biomass

**Dr. Bernhard Ćosić**

Bernhard works at the intersection of technical excellence and strategic implementation in a field that is central to the energy transition: carbon capture and the utilisation of biomass.

At RWETI, he is responsible for the technical design and realisation of complex, forward-looking projects. His background in R&D and his academic training at leading technical universities provide a solid foundation for a structured and methodical approach. Experience from industrial research and development directly informs his day-to-day

work, from technology selection and economic evaluation to systematic project steering. A key focus for him is close, solution-oriented collaboration with partners, suppliers and internal stakeholders.

His goal is not only to design technical concepts, but to bring them into successful application through constructive dialogue and joint effort.

## 1 What gives you most satisfaction in your work?

What excites me most is the combination of technical depth, strategic thinking and teamwork in my role. I enjoy solving complex engineering challenges, shaping project direction and working with my team to deliver solutions that are both robust and practical.

## 2 Why did you choose RWE TI?

RWE Technology International combines international project expertise with technical excellence: a perfect match for my background. The open culture, the strong sense of purpose, and the ambition to actively drive the energy transition were decisive factors for me. I also appreciate the openness with which new ideas are embraced and developed further here.

## 3 What three words best describes you?

Analytical - goal-oriented - knowledgeable.

## 4 Your challenge is our passion!"

What it means to me: This statement captures the essence of how I approach my work. I see every technical challenge as an invitation to examine it thoroughly, consider it from multiple angles, and work with my team to develop a reliable and implementable solution. The drive to deliver meaningful results is what motivates me every day
