Counter motions by Bernd Kevesligeti in relation to the Annual General Meeting of RWE AG on 28 April 2021

Cologne, 8 April 2021

Counter motion in relation to the Annual General Meeting of RWE Aktiengesellschaft on 28 April 2021 pursuant to Sections 125 and 126

The acts of the Executive Board and the Supervisory Board shall not be approved.

RWE maintains its failed coal policy. Contrary to its emphatically postulated climate targets.

To this end, localities in the Rhenish mining region are in the process of being cleared and their residents are being forced to relocate, or this will happen in the future.

Names of villages that have existed for centuries such as Berverath, Westrich, Kuckum, Keyenberg and Immerath are an expression of this policy. People are being forced to make way for coal (or the profits it will bring).
