

Press release

Sandra Dettmer is joining the Management Board of RWE Renewables Europe & Australia

- **Experienced energy manager to take up newly created position of Chief Operating Officer (COO) at RWE Renewables Europe & Australia on 1 April 2026**
- **Responsibilities include Engineering, Construction and Operation of wind and solar plants and battery storages, as well as HSE (Health, Safety, Environment)**

Essen, 11 March 2026

Sandra Dettmer will take on the role of Chief Operating Officer (COO) on the Management Board of RWE Renewables Europe & Australia GmbH on 1 April. This move will enable RWE to place even greater management focus on the growing number of onshore wind, solar and battery storage projects under construction and in operation in Europe and Australia. Dettmer's future responsibilities at RWE Renewables Europe & Australia will include Engineering, Construction and Operation of wind, solar and battery parks, as well as HSE. Sandra Dettmer joins CEO Sopna Sury and CFO Simon Bockmühl on the management board. Dettmer was most recently Director of Construction at RWE Renewables Europe & Australia.

Markus Krebber, CEO of RWE AG: “In Sandra Dettmer, we have a highly experienced energy manager from within our own ranks. She is very familiar with our renewables business in Europe and Australia and will successfully continue the safe operation and rapid construction of our onshore wind, solar and battery parks. These technologies are an important cornerstone of RWE's value-driven growth. I am very much looking forward to working with Sandra in the future.”

RWE

RWE is leading the way to a modern energy world. With its investment and growth strategy, RWE is contributing significantly to the success of the energy transition and the decarbonisation of the energy system. Around 20,000 employees work for the company in almost 30 countries worldwide. RWE is one of the leading companies in the field of renewable energy. RWE is investing billions of euros in expanding its generation portfolio, in particular in offshore and onshore wind, solar energy and batteries. It is perfectly complemented by its global energy trading business. Thanks to its integrated portfolio of renewables, battery storage and flexible generation, as well as its broad project pipeline of possible new builds, RWE is well positioned to address the growing global demand for electricity, particularly driven by further electrification and artificial intelligence.

RWE is decarbonising its business in line with the 1.5-degree reduction pathway and will phase out coal by 2030. RWE will be net zero by 2040. Fully in line with the company's purpose - Our energy for a sustainable life.

Forward-looking statements

This press release contains forward-looking statements. These statements reflect the current views, expectations and assumptions of management, and are based on information currently available to management. Forward-looking statements do not guarantee the occurrence of future results and developments and are subject to known and unknown risks and uncertainties. Actual future results and developments may deviate materially from the expectations and assumptions expressed in this document due to various factors. These factors primarily include changes in the general economic and competitive environment. Furthermore, developments on financial markets and changes in currency exchange rates as well as changes in national and international laws, in particular in respect of fiscal regulation, and other factors influence the company's future results and developments. Neither the company nor any of its affiliates undertakes to update the statements contained in this press release.
