

Press release

RWE sold its Swedish wind activities to Aneo

Essen, 1 April 2026

RWE and Aneo, a Nordic renewables player, have successfully closed the [transaction they announced in January](#). As agreed, Aneo has acquired RWE's former Swedish wind activities. This includes an onshore wind development pipeline (1.8 gigawatts), onshore wind farms with a total operational capacity of 124 megawatts, the operational Karehamn offshore wind farm (48 megawatts), a third-party onshore service business, and the relevant development, operations and offshore teams assigned to the transferred projects and assets.

RWE

RWE is leading the way to a modern energy world. With its investment and growth strategy, RWE is contributing significantly to the success of the energy transition and the decarbonisation of the energy system. Around 20,000 employees work for the company in almost 30 countries worldwide. RWE is one of the leading companies in the field of renewable energy. RWE is investing billions of euros in expanding its generation portfolio, in particular in offshore and onshore wind, solar energy and batteries. It is perfectly complemented by its global energy trading business. Thanks to its integrated portfolio of renewables, battery storage and flexible generation, as well as its broad project pipeline of possible new builds, RWE is well positioned to address the growing global demand for electricity, particularly driving by further electrification and artificial intelligence. RWE is decarbonising its business in line with the 1.5-degree reduction pathway and will phase out coal by 2030. RWE will be net zero by 2040. Fully in line with the company's purpose - Our energy for a sustainable life.
