Cologne, 23.06.2023

Sequence no.: 2023-010

Project Objective:

Logistics services of pipes in connection with the construction of the Rhine water transport pipeline between Dormagen and Elsdorf / Grevenbroich

Product group sector: FI26
Order type: Freight forwarding order
Date of internet publication: 23.06.2023
Closing date for applications: **17.07.2023**
Dispatching of prequalification documents: August 2023
Dispatching of tender documents: October 2023*

Description:

RWE Power AG currently operates the Garzweiler and Hambach opencast mines in the Rhenish lignite mining area. From 2030 onwards, water from the Rhine will have to be brought in to fill the opencast pits and to provide eco-water for wetlands worthy of protection.

The water is to be taken from the Rhine in the Dormagen-Rheinfeld area and will be pumped to the Garzweiler and Hambach opencast mines via a 45 km long underground pressure pipeline. Construction is scheduled to start in 2025 and to be completed by the end of 2029.

The project Rhine water transport pipeline consists, among other things, of the construction of steel pipelines in the dimensions 3x DN 2200, 2x DN 2200 and 2x DN 1400 over a route length of approx. 45 km. The steel pipelines are provided with corrosion protection inside and outside.

* This date is non-binding, subject to change.
The binding bid submission date will be stated in the tender documents.

Various logistics services are needed:

Lot 1:

Shipment of the aforementioned pipes (approx. 9,000 pieces DN 2200 and approx. 1,000 pieces DN1400 each in lengths 12m and 8m) - from a port in the manufacturing country of the pipes to a destination / storage yards in the Rhenish mining area - with the following requirements:

- Global ship transport with a full charter vessel with crane capability, if necessary, to a seaport in Germany, Belgium or the Netherlands.
- Onward transport via inland waterway vessel, train or lorry to storage locations named by us in the Dormagen/Grevenbroich-Neurath area named by us.

Lot 2:

Stock management & transport of the aforementioned pipes from our stock-yards to our construction sites in the Dormagen/Elsdorf area.

Start of service provision expected in Q4/2024.

End of service provision expected in Q4/2029.

Would you like to be part of an unique project and are interested in at least one of the two lots? Then please apply with a short supplier portrait and a corresponding reference list.

You will receive the pre-qualification documents and all further information at the appropriate time (August 2023) from the above-mentioned contact person.

Please send your expression of interest including a list of references by e-mail to the address below:
