Countermotion by Thomas Wichert, 30 March 2013

“The amendment to Article 12 of the Articles of Incorporation should be rejected.

Rationale.

1. Supervisory board members are influential figures in the economy. Both during and after the moratorium, they failed to exert their influence when the cessation of operation of fully functional nuclear power stations caused great damage to the company and its shareholders. They should have fought for and been granted a transitional period.
2. It is dishonourable to turn the variable compensation into a fixed compensation when profits are declining.

Sincerely yours,

Thomas Wichert”
