

## Contract- and Claim-Manager **Johann Ehlers**

Johann Ehlers has studied civil engineering at the University of Duisburg-Essen with a focus on construction management and economics. After his master's degree, he worked as a research assistant at university and as a claim-manager in a project concerning renewable energies for two years, partially in Sweden. His extensive theoretical background with multiple years of experience ensures that Johann is best suited for the position as contract- and claim-manager for RWE Technology International. Besides, Johann is a co-founder of the professional group for Project Management in Plant

Construction of the DVP (German Association of Project Managers in the Construction and Real Estate Industry e.V.) and develops new project management tools and trends in order to provide the best solutions for our customers.

### **1** What gives you most satisfaction in your work?

To work out the best solution for our customer. Each project is different, that means that every solution is different too and the way to do it.

### **2** Why did you choose RWE TI?

To have the option to work in different kind of projects in a great teamwork with my colleagues

### **3** What three words best describe you?

Costs, quality and time (magic triangle project management).

### **4** You get your best solution! – What it means to me:

That every day is a challenge and my working life is like a marathon not a race!
