

Head of Project Portfolio Internal Services & External Projects

Wolfgang Moll (Ph.D.)

Wolfgang is a senior engineer with more than 30 years' experience in national and international projects in the power generation industry.

Wolfgang headed several projects investigating investment projects all over Europe, Asia and Middle East. He was the technical project manager for project development activities for power plants in Bulgaria, Croatia, Poland, Kosovo, Greece and Emirates.

Wolfgang is a highly experienced manager with a deep understanding of the technical complexities of power plants and extensive

experience in Eastern, South-Eastern Europe, Asia and Middle East. Wolfgang is responsible for the Project Portfolio Internal Services & External Projects within RWE Technology International.

Wolfgang earned his doctor degree in 1990 from the Technical University Aachen.

1 What gives you most satisfaction in your work?

Finding an optimal solution in technically and commercially complex projects which fully meets the requirements and satisfaction of our client.

2 Why did you choose RWE TI?

RWE TI is not as any other consultant as we not only develop, execute and further optimize power plants for a sustainable lifetime, but also operate the power plants. As RWE TI works in an international environment, it is more than interesting to work with people having a different cultural background, widening your own horizon and finding new ways of working.

3 "You get your best solution" – What it means to me:

Listening to your requirements and expectations resulting in a solution which perfectly fits the objectives. We are able to support you in nearly any topic in the energy business and improve it for you.
