

RWE Renewables Health, Safety and Environment Policy Statement

#Enjoytomorrow

As members of the RWE family, the Renewables businesses rally behind RWE's purpose: Our energy for a sustainable life. It describes why we exist and what drives us forward every day. We are passionate about renewables and the impact we create for the world. We are responsible corporate citizens and have a positive environmental, economic and societal contribution.

Health, Safety and Environmental Excellence the Cornerstone of Sustainable Performance

We believe that long-term, sustainable success can only be reached through people. We create and provide safe and healthy working conditions. We believe that all accidents are preventable and therefore, one accident is one too many. We are passionate about helping to protect our planet and are committed to support societies globally to meet the United Nations' two degree target and commit to net zero by 2040.

In short: We care for each other, our assets and the environment wherever we operate, whatever we do.

Our Care Commitments

We live the following commitments and require all colleagues and encourage all business partners to abide by these and act accordingly:

- Our management visibly demonstrates leadership in Health, Safety and Environment (HSE) throughout all our business processes, activities and decisions.
- We take decisive action to ensure and promote the health and safety of all employees, business partners and neighbours as well as to assure the protection of the environment – no matter where we are or what we do. We avoid hazards, reduce risk and continually improve our performance.
- We devote energy and attention to prevent harm, and to maintain and improve the health and wellbeing of employees, business partners and others involved with us along the value chain.
- We empower and expect our colleagues and business partners to take personal responsibility, role-model HSE and be brave by stopping unsafe work and challenging unsafe conditions.
- We appreciate and recognize good HSE behaviour and performance, strive to find safer ways of working and take pride in actively sharing good HSE practice.
- We welcome constructive feedback and challenge on the implementation of our HSE Policy.
- We take a holistic, life-cycle wide approach to environmental protection aiming at reducing environmental impacts whilst increasing the production, storage and use of green energy.
- We are committed to ensuring the integrity of our assets to increase clean energy production whilst preventing harm to people and the environment.

We care today, so everyone enjoys tomorrow
